

Bespoke Farm Map & House Portraits

Every place tells a story. Capture yours in bespoke, hand-drawn artwork.

THE STEPS

1. Commission

Using your photographs and maps I create a detailed hand-drawn illustration of your farm and home, personalised with field names, family names and meaningful landmarks.

2. Fine Art Production

Your artwork is professionally scanned and printed to museum-quality standards on archival Hahnemühle Fine Art paper.

3. Delivery

Your finished artwork is carefully packaged and delivered ready to frame and enjoy for generations.

WHAT IS NEEDED

House portrait

1. Take a photo from the angle you'd like the house to be drawn. This will be the main reference for the portrait, so pick the side that best represents your home.
2. A wide-angle shot (or multiple overlapping photos) that shows the yard, garden, trees, fences, or driveway helps add context and atmosphere to the portrait.

Farm Map

1. Please provide either a copy of an aerial map or a screenshot of your land from Google Maps. Simply outline the property boundaries, number each field, and provide the corresponding name for each field number.
2. If possible, please also include the postcode so I can zoom in and clarify any details if needed.

FINE ART MATERIALS

WHITE WALL

Printed through WhiteWall, an internationally award-winning fine art printing company trusted by artists for exceptional tonal precision and museum-quality production.

Produced on Hahnemühle German Etching 310gsm, a luxurious textured archival paper renowned for its rich detail, exceptional longevity and gallery-standard finish.
